INVESTMENT OPPORTUNITY IN GOPRIME TRANSFER

GoPRIME is a dynamically developing taxi and transfer service provider operating since 2018 and started as an independent driver society. We are generating an annual revenue of 275,000 - 350,000 euros and aiming to reach an annual turnover of 1 million euros in the next two years, with an operating profit of 20-22.5%. We currently operate with no loans and have closed every year with a positive balance sheet, even during the period affected by COVID, and we have a full year of operating cost reserves.

Current market challenges

GoPRIME has faced several challenges during its operation in regards to vehicles (fleet challenges), such as:

- Non-optimal car rental periods (rental periods that are too short or too long).
- Unlawful deposit deductions and availability of unsuitable cars.
- Warranty defects and inadequate customer service.
- Unnecessary costs such as car travel, double insurance and overpriced service costs.

THE OPPORTUNITY

The GoPRIME investment offer is aimed at purchasing a car, financed by the partner. Depending on the type of car, the basic prices and rental fees are as follows. Here are some examples:

- **Passenger car: ~€27,500 (Monthly rental fee: ~€765/month)**
- **Small minibus: ~€50,000 (Monthly rental fee: ~€1,390/month)**
- **Luxury minibus: ~€75,000 (Monthly rental fee: ~€2,085/month)**

The cars can be used for 36 months for an equal monthly rental fee.

All costs incurred are borne by GoPRIME, including servicing, insurance, tyre changes, maintenance and inspection.

In the 37th month, the investor can decide: we will buy the vehicle from him for the guaranteed buy-back amount (50% of the purchase price of the vehicle).

Or we will return it to the investor, who will then have free control of the car. The vehicles are returned in serviced condition, with a maximum mileage of 200,000 km.

In the first round, we would like to replace the current fleet of 10 cars by June 2025, and in the second round, we will need an additional 10 cars by December 2025.

INVESTMENT ADVANTAGES

STABLE, FIXED RETURN

GoPRIME offers an opportunity that provides investors with a long-term, secure income.

SECURE LEGAL BACKGROUND

We offer appropriate legal safeguards and guarantees for the investment, which minimize risks.

SECTORAL GROWTH

The transportation and transfer industry is constantly expanding, and GoPRIME aims to solve the industry problems with its own services.

GoPRIME aims to build its own fleet of vehicles and make significant strides in the market of transport and leasing service providers. Based on our experience, leasing companies do not provide adequate conditions for transfer companies, therefore we would like to provide our services with our own working equipment and vehicle fleet.

THE FUTURE

Some of the solutions we are working towards :

- **We launched our own app, on IOS and Android platforms, after a 1 year development:** The app will facilitate direct contact between passengers and drivers, and we expect to have approximately 10,000 active users by the end of 2025.
- **Achieve Uber Premium partner status:** Providing us with privileged partner opportunities.
- **Open new regions and markets:** Achieving further growth.
- **Launch new vehicle types:** Offering both cheaper and premium services.
- **Create TMB Parcel Delivery:** Expanded collaborations.
- **Car rental:** For other transfer companies to solve the issue of vehicle supply.

Closing Thoughts

GoPRIME offers an attractive investment opportunity **(in 36 months minimum 50% profit)** with its in-depth knowledge of industry experience and market needs, as well as future expansion plans. We aim to achieve sustainable growth and build a strong market position while solving the everyday problems of drivers and transfer companies.

We are looking for stable and reliable financial investors who value a well-thought-out business plan and a solid legal background and who understand what a developing business really need.
